

### REMARKS

In response to the official office action of July 12, 2005, applicant has canceled claims 1-2 in view of the prior art. Applicant has also rewritten claim 3 as a new base claim including the limitations of the original base claim and any intervening claims, and has now placed claims 3-10 in conditions for allowance as allowed by the examiner. In addition, applicant has amended the specifications to overcome the examiner's objections. Further, applicant contends that no new drawings are needed as they accurately show the invention. Instead, applicant has amended the specification and the claims by deleting the word "hingedly" and adding the phrase "being foldable upon and off said bill, because the mirror is conventionally attached continuously to the bill of the cap and folds upon the bill and the use of the word "hingedly" was incorrect. There is no gap between the mirror and the bill of the cap. In addition, the specification describes the handle member being attached to the mirror. Applicant doesn't want to provide any further limitation to how the handle member is attached to the mirror.

Applicant has not added any new subject matter to the claims and respectfully request that the examiner takes the foregoing into consideration and that he be granted Letters Patent for his invention.

Respectfully Submitted,  
For: Juan C. Cabrera
